Provisioning & LNP Services

GVNW's Provisioning and LNP Services will help your company save time, money and improve overall efficiency so you can focus on customer retention and acquisition.

Today's telecommunication environment has created a challenge for ILECs, CLECs and Wireless Operators to manage the many time consuming tasks associated with number portability, interconnection and service requests – to name a few. GVNW's Operations Division team can assist with all elements of the LNP process and help you avoid the incorrect information that leads to increased cost, as well as communications breakdowns between vendors, carriers and customers.

Why Turn to GVNW for Your LNP Initiative?

Working with our team of experts saves time and reduces LNP costs, allowing carriers to focus on customer satisfaction, increasing acquisitions and reducing churn.

GVNW interfaces directly with interconnecting parties and can help your telecom business capture potential revenue, determine desired services and establish implementation dates to ensure accurate and timely responses to porting requests.

GVNW Solutions

Automatically:

- Present LNP relevant data at a centralized location
- Escalate pending orders based on predefined criteria
- Generate and deliver statistical data reports to executives
- Notify customers of porting problems or delays
- Update LNP status and database

Avoid:

- Unnecessary Transport Expenses
- Hiring Additional Staff
- Training Costs
- Purchasing Additional Equipment
- Processing Delays

Increase:

- Customer Satisfaction
- Revenue Recognition
- Scalability
