

LOCAL SERVICE REVENUE REPORTABLE TO THE KUSF

All Revenue derived from sources similar to those listed and described below should be reported to the KUSF, regardless of technology (wireline, wireless, VoIP, etc). The codes listed are from the Uniform System of Accounts used by the LECs. If your company uses different account codes or names, comparable revenue must be reported.

K.S.A. 66-2008(a) provides, in part, "The commission shall not require any provider to contribute to the KUSF under a different contribution methodology than such provider uses for purposes of the federal universal service fund, including for bundled offerings." Thus, a Company may report services revenues for KUSF contribution purposes in a manner consistent with reporting for Federal Universal Service Fund (FUSF) contribution purposes. A company using the same methodology will need to check Line 22 on the Carrier Remittance Worksheet.

A Provider that claims it provides "free" voice service must report revenue and may elect to use the same contribution methodology as that used for FUSF purposes. If a Provider reports zero revenue (\$0.00) for the assessable service, the Provider must substantiate (e.g. usage or traffic study) that the assessable service was not used by a subscriber.

Description	Comments
Wholesale Service Revenue	Service sold to another carrier, which then resells to end-users. Billing & Collection Service Revenues are considered as a part of "Access Service" and reported accordingly. For Wireless providers, this includes arrangements for other carriers to use of your towers for their end-user customers. Through the use of your company's tower, the purchasing carrier is able to offer an expanded network to its customers, or charge its customers airtime and roaming fees, which are then reported by the purchasing carrier.
Rental revenues	Revenue from non-telecommunications rental service (e.g. poles, towers, conduit, etc.)
Franchise Fees, 911 Fees	Pass-through charges collected from customers and remitted to the appropriate federal, state, or local agency
Excise, Local and State Taxes	
Interstate service	Only Intrastate retail revenues are assessable for KUSF purposes.
<u>Interstate Miscellaneous Charges, including:</u> Subscriber Line/End-User Common Line Charge Presubscribed Interexchange Carrier Charge (PICC) Federal USF/ Access Charges Number Pooling, Number Portability Fees Federal Taxes, Excise Tax	These are pass-through charges subject to the Federal jurisdiction and remitted to the appropriate agency.
Federal and State High-Cost USF Receipts	Lifeline: Report the pre-state and federal charge that would be collected from the subscriber absent state and federal Lifeline support.
KUSF Assessments Billed to Customers Coinbox revenue	Pass-through assessment remitted to KUSF Administrator. (see 2/14/2000 ruling) Non-Regulated
Inside Wire Service Plans, Voicemail, Non-Voice Services, including: Optional Ring-tones, Standard Messaging Services, Media Messaging (pictures, video, games) Digitized Media Services (wallpapers, backgrounds, etc.)	Non-Regulated See 9/7/2006 Order, Docket No. 06-GIMT-943-GIT.
Phones and Accessories, Paging Equipment, Phone Insurance Other Terminal Equipment, Roadside Assistance Insurance	
Shared Tenant Services (STS)	The Underlying provider, which is generally an ILEC, will bill the STS and report the revenue for services sold to the STS provider as retail revenue. The STS provider may not bill tenants separately for telecommunications services. For example, apartments or Universities may include local and/or limited long-distance as part of the rent or room/board fees.
