

Just So You Know

CAF ICC Data Required To Be Filed With Your State Commission

On June 1, 2017, NECA sent out a reminder that pursuant to 54.304(d)(1) of the Federal Communications Commission's rules require rate-of-return carriers seeking CAF ICC support to file their CAF ICC data and certifications with their state commission this year by June 16, 2017.

Rate-of-return carriers can obtain the relevant CAF ICC data and certifications from NECA or by having your GVNW consultant obtain the relevant data from NECA. The CAF ICC data should be filed with your state commission no later than June 16, 2017. As always, GVNW, if it is not already set to do so, is available to assist your company with the filing of the CAF ICC data and certifications with your state commission.
