

# Just So You Know

## **FCC Form 481 Ready for Certification**

The Office of Management and Budget has approved the FCC Form 481. The certify buttons for the online form have been enabled so that Final Certifications can now be completed via USAC's password protected E-File portal once the form is ready for certification.

All ETCs participating in the High Cost and/or Lifeline program (excluding Phase I Mobility Fund participants) are required to file the FCC Form 481 with USAC, the FCC, and the State Commission by July 3, 2017.
