

Reporting of Geolocated Deployment Data

A reminder that carriers who participate in the Connect American Fund programs are required to report geolocated deployment data for newly deployed or upgraded locations. Reporting location obligations and deadlines are dependent upon the type of support that each carrier receives. Following is a summary of the CAF-BLS and CAF A-CAM recipient obligations:

CAF-BLS Support Recipients With Deployment Obligations – CAF-BLS support recipients with set deployment obligations are required to file via the USAC HUBB Portal all newly deployed or upgraded locations between May 25, 2016 and December 31, 2017 by March 1, 2018.

CAF-BLS Support Recipients With No Deployment Obligations – CAF-BLS support recipients with no set deployment obligations are required to file via the FCC Form 481 all newly deployed or upgraded locations between May 25, 2016 and December 31, 2017 by July 1, 2018.

CAF A-CAM Support Recipients – A-CAM support recipients are required to file via the USAC HUBB Portal all newly deployed or upgraded locations for calendar year 2017 by March 1, 2018.

Please contact your GvNW consultant or Courtney Spears (830.895.7221, cspears@gvnw.com) or Steve Gatto (830.895.7226, sgatto@gvnw.com) with any questions or concerns regarding the reporting requirements.
